The SC's Office mandates that new LEAs complete the online training course available on the DLA LESO website and send the certificate of completion to the SC's Office as proof. There are no established classroom training sessions and none are provided if requested by an LEA. However, assistance is provided over the telephone.

2. How does the SC's Office provide guidance and updates to participating LEAs on the LESO Program?

The SC's Office provides guidance and updates to participating LEAs by email, telephone, and during compliance reviews.

The SC's Office validates that the justification meets the following criteria for requested property: it will be for law enforcement purposes, it will be used by authorized participants, and is persuasive. Comments: *Section III, Paragraph A, Item 1: The Plainville Police Department stated that the small arms are kept in the patrol vehicles at all times. The small arms are not secured in the vehicle beyond placing them in the trunk, placing a blanket over them and closing the trunk lid. The Chief stated that the small arms need to be readily accessible and are not if they are behind multiple layers of security. The LESO PCR Team did suggest options to secure their small arms such as a lock box to be mounted in the trunk in order to provide additional security.*

IV. Areas of Concern and/or Recommendation:

LEAs reviewed during this PCR were unaware of the types of property available through the LESO Program. Due to this, it is highly encouraged that the SC's Office create additional opportunities to physically spend time with participating LEAs in order to ensure they understand the full scope of available property. Of the twenty-seven (27) LEAs reviewed, twenty-four (24) were under the impression that only small arms were provided by the LESO Program. The LESO recommends that the SC's Office make reasonable effort to engage with all participating LEAs, regardless of the remote areas of the State where LEAs reside. Engagement between the SC's Office and LEAs can be in the form of phone calls, emails, newsletters, as well as face to face training.

V. Areas of Praise:

LEAs reviewed lauded the level of support received from the SC's Office with respect to assistance requested during the annual inventory. The majority of LEAs reviewed displayed an understanding of the communication which obviously took place in preparation for this PCR.

Due to the robust schedule and the remote region of Kansas reviewed there were no "No Notice" reviews conducted.

VIII. PCR Inventory Results:
